## Bertha To Be Fish Barge

The steam freighter Bertha, for many years the crack liner to Southwestern Alaska ports, will be converted into a barge and towed next spring to Ship Creek, Cook's Inlet and used for a warehouse in the summer and in the fall will again be towed to Seattle with the season's catch of salmon.

The vessel has become so unseaworthy that the company can no longer use her and have determined to take the machinery out and convert the historic old boat into a barge.

## Alaska Railroad Bill Passed Yesterday

Washington, Feb. 19.—The Administration Alaska Railroad bill authorizing the President to construct a thirty-five million dollar government railroad in Alaska passed the House late yesterday afternoon by a vote of 230 to 87. And in the committee of whole by a vote of 88 to 87. Fitzgerald's amendment to eliminate the forty thousand dollar bond issue was carried. Fitzgerald contended that the Alaska road should be constructed from funds direct from the Treasury and will be built that way.

The Bill now goes to the President for his signature but as he has already declared himself there will be no delay there and the Bill will become a law at once.

As soon as the final vote was over and while the subject of Alaska was still hot Secretary of the Interior Franklin K. Lane appeared before the House committee and made an address urging that the Alaska Coal Leasing Bill must be downed to open the country. The subject has been promised early discussion.

Measure the breed of the Knock-

 work.

Life is a cocktail in which the  
 bitter is mixed with the sweet. And  
 man is the cherry.

The handsomest girl in this city  
 a reader of this paper, we are  
 glad to state, and she is now  
 adding this item.

Woman's love of dry goods and  
 man's love for wet goods cause  
 out nine-tenths of the domestic  
 card in this world.

Mother love were to sudden-  
 appear in our midst, her cher-  
 ed fig leaf would be ripped all  
 ces by the tongues of envious  
 city leaders and the newspapers.

Almost any smart young fellow  
 tell the weight of a girl by  
 ding her on his lap. A fellow of  
 acquaintance once found out  
 weight of a girl's father on  
 account.

That Hooper governor's wife is a  
 tech. In a recent address made  
 ore the Democratic Editorial  
 association, she said, "Every ed-  
 itor is like a woman who can give  
 a good fried chicken, nice hot  
 rolls and peach cobbler.

I have you ever noticed that the  
 crage man will turn out of the  
 y of a go-cart with a baby in it  
 d lift his hat to the proud mam-  
 way wheels it, with never a  
 murmur, and then scowl at a crowd  
 "ociety" women on their way  
 from a club meeting, who  
 od him off the sidewalk.

Professor William Tatt has been  
 mentioned as next chief justice of  
 the United States Supreme court.  
 it is a position that needs a man  
 reasonably progressive and who  
 will put the people's needs above  
 legal technicalities and bad prece-  
 dents. It is to be hoped that if Bill  
 gets the job he will not follow the  
 same mode of procedure that he  
 did in administering to Alaska.

**Pumice Stone.**  
Pumice is an acid volcanic rock, which may be in either massive or finely comminuted form. It owes its peculiar porous, vesicular or pumiceous condition to the rapid expansion of included moisture or gases, due to sudden release of pressure at the time of its ejection from the volcano. This expansion may be caused to such an extent that the rock is completely shattered, and the resultant finely powdered material may be carried to unknown distances by wind and air currents and then deposited in beds several feet thick.

**The Superfool.**  
We know the man who cannot swim  
A stroke, but loves to float  
Upon the summer sea and thinks  
It smart to rock the boat.  
Though over his untimely grave,  
Beneath the billows cool,  
We drop the tribute of a tear.  
We class him as a fool.  
But now that we have learned at last  
The trick of how to fly  
And soar above the fleecy clouds  
And navigate the sky,  
When far below us spreads the sweep  
Of valley, hill and plain,  
What shall we call the passenger  
Who rocks the aeroplane?
